Discount Matrix

Applicants use the discount matrix to determine the correct discount level for a school district or library system.

To receive discounts on eligible services, an applicant must calculate the percentage discount that it (and the entities it represents) is eligible to receive.

For detailed information on how to calculate the percentage discount for particular types of entities (schools, school districts, library outlet or branch, library system, or consortium), see the [Calculating Discounts](#) area of the Schools and Libraries Program website.
